## Project Update

Date: 7/20/23

Dear Residents of Building #1,

I am writing to inform you that North Coast Roofing of Ohio will be tentatively starting the roof project on your building on July 31st. Materials for the job will be delivered on July 27th.

The project is expected to take 2 weeks to complete. During this time, there will be some noise and disruption as we work on the roof. We ask that you please be patient and understanding during this time.

We request that you please stay clear of the construction area and do not cross the safety tape.

In order to protect your belongings, we ask that you please secure any items on your patio or on your interior walls that could be damaged. Our crew will do daily cleanup of the ground.

We appreciate your cooperation in this matter.

Sincerely,

Don Nickeson

Director of Operations
