

Hello,

The main update is that primrose and the north garage is now OSB'd and wrapped and ready for a Diamond Kote installation campaign that will begin 1/16/23 (weather permitting). Please note that new upper garage door locksets are being installed and keys will be distributed. The upper lock allows individuals to manually gain access to a garage when electricity is out or the automatic opener malfunctions.

### **Primrose with new windows**

**Northeast side of Primrose.** We have new windows for this side too but they're not yet installed.

**North Garage**
